## Update of LAPrec-Dataset

Last version was published beginning of 2021 (end of first phase).

Deliverable/Milestone	date
Update of dataset	April 2023
Update of dataset	April 2025

Update includes:  
Dataset, Product  
User Guide  
(including  
comparison  
between the last  
and new version )

Second update takes improvement for calibration period  
(MeteoSwiss) into account

Datasets to be provided via C3S-Data Store

Climate  
Change

## New Phase

### Other tasks:

Support of KNMI via EUMETNET regarding data policy issues

Support of C3S Climate Intelligence Team (if necessary)

### Risks:

- Closure of stations (if no replacement is available in due time, recalculation of the whole dataset might get necessary)
