Content of DWD contribution

- **Products, tasks, activities:** WP4
 - Monthly, seasonal, annual bulletins
 - Road map to enhance the provision of in situ data to the Copernicus services under an Open Data licence for derived data products
- **Expertise:** Many years in Climate Monitoring incl. generation of bulletins in the context of the WMO RA VI RCC and C3Surf1, close contacts and collaborations with WMO and NMHSs in RA VI
- **Risks:** availability of the project employee, national data policies
- **Perspectives:** C3Surf2 fits very well to climate monitoring activities of DWD, good complement, foster visibility of climate monitoring for Europe
